\$11,000 GRANT GOES FOR CITY ENGINEERING

Cameron has been notified of approval of an \$11,000 Economic Development Administration grant for engineering services on the now half completed water and sewage extension north of Cameron.

The extension will link industrial sites along US 77 with Cameron water and sewer system. The water system will enable expansion at Walled Lake Door Co. and buildings to accommodate dress and furniture factories that will employ about 500 people when all are in operation.

Mayor E. A. Perrin said the city had originally applied for an Urban Renewal grant and an EDA complimentary grant. Perrin said the Urban Renewal request was delayed and the city decided to extend the water and sewer lines with local funds.

A separate request for federal funds was requested by the city in September to cover costs of engineering services on the project. This was approved Thursday by the Economic Development Administration.

Perrin said the new line should be completed by mid-January.

School Accepts Smith Residence For Future Use

The Cameron School Board Thursday accepted the residence of ~~Donner Oxsheer Smith~~ at 902 Jackson Ave. for suggested use as an administration building.

Completion of transfer of the estate is subject to Smith's life estate. He will continue to pay taxes and maintain the acre and a-half property throughout his life. The property is about 1,000 east of the Yoe Campus on East Tenth St. It is landscaped and the house has large rooms which could be used for numerous school functions.

A spokesman suggested it "could probably be utilized as an Administration Building for the school district, thereby releasing additional space for classroom use." The presentation was made to "the Cameron Independent School District and the children of this community," he said.

A native of Milam County, Smith is president of Citizens National Bank, a director of board of trustees of Methodist Home Foundation, Waco, president of the Oxsheer Smith Foundation, chairman of finance committee of the board of Brazos River Authority, among other leadership roles in the state.

He is a member of the Masonic Lodge, Cameron Lions Club, Knights of Pythias Lodge and a founder of Cameron Country Club.

Smith has been president of Cameron bank since 1915 when H. F. Smith Sr., retired, Smith was educated in Cameron schools, University of Texas and Eastman National Business College, Poughkeepsie, N. Y.

The board accepted the residence and expressed appreciation for the gifts to the community and, as Smith says to "the young people who have always been a part of my life."

Coffield Low Bidder On Courthouse Job

Coffield Construction Co., Lockdale, was low bidder for remodeling work at the Milam County Courthouse when bids were opened by County Commissioners 2 p.m. Tuesday.

Coffield bid \$68,888 on the project that will add an elevator to the 77 year old courthouse and convert the third floor to usable office space. Only other bidder was Air Conditioning Inc. They bid \$82,636.

County Judge O. B. Harden said the work was scheduled to start soon after the first of January.

UNITED FUND

Cameron's United Fund drive went over the top with 103 percent of the \$8,400 goal raised. Forrest Sapp, drive chairman, said nearly 100 percent of the workers had reported in. He expressed appreciation to all who worked hard to make the drive a success.

4 Grandchildren Escape Injury

A 56-year-old Negro man fatally shot his wife twice and himself once about 10:45 a.m. Tuesday at their 807 West Eighth St. frame home.

Four of the victims' grandchildren were carried by county and city police officers uninjured from the small house where Jourdan Bell Sr., about 56, killed himself with a 12-gauge, single-barrel shotgun.

Mrs. Jourdan (Mabel) Bell Sr., about 55, went down in the gravel street in front of the house, shot twice by her husband, witnesses told Cameron police.

Peace Justice Jess Brock Tuesday afternoon ruled murder with malice in Mrs. Jourdan's death and self-inflicted gunshot wound in the death of Jourdan.

Sheriff Carl Black kicked in two front doors to the small house after waiting some time on the porch for some movement within the house.

He was followed in by Patrolman Felipe Martinez while Police Chief John Shearin and a deputy sheriff entered the back. At least one Ranger and several other officers including Patrolman Milton Wright covered entrance into the house.

FOUND ON BED
Sheriff Black found Jourdan dead in a back bedroom of the house, shot through the heart and left underarm. A 12-gauge shotgun was near the bed on which Jourdan was sprawled, arms extended.

Police Chief Shearin answered a call to the West Eighth St.

Voter Registration Nears 4500 Mark

Voter registration in Milam County is near the 4,500 mark, according to Valter White, county tax assessor-collector. Deadline for registration is January 31, 1969.

All persons 21 years old or over must register to be eligible to vote.

A lighter registration than last year's is expected, as no state or county elections are scheduled for 1969. A general city election will be held in April for three Cameron City Council places, City Secretary J. P. Fuller said.

Milam County voters may register at the Milam Courthouse in Cameron, City Hall at Thorndale, and at Gaither Motor Co. in Rockdale.

Registration forms are available at the county tax office for persons unable to register in person. The forms are pre-addressed for mailing back to the office.

Over 6,000 persons registered in Milam County for the 1968 elections, which ranged from a national presidential election to a local one for mayor.

City Limit Discussion . . .

Two Areas Proposed Here

The City Council Tuesday authorized in split votes that legal work begin on boundaries of two areas northwest of Cameron for proposed incorporation within city limits.

After work is completed by City-Atty. Ed Magre, the metes and bounds will be advertised and a public meeting will present the proposals prior to final Council action. Mayor E. A. Perrin told The Herald.

Chairman Lawrence Zoltz, of the Council committee studying the limits prospects, reported on two areas northwest of Cameron. Other Council committeemen are Lester Turner and R. W. Wells. Zoltz voted against a motion from the Council to consider the two areas separately. He favored considering both areas as one incorporation question. Council vote of Starrett Hickman, Lester Turner and Robert Clark brought

consideration of the two annexation areas separately. Councilman Wells was not at the meeting. Zoltz read a resolution which would incorporate:

"An area bounded on the east by Columbus Avenue, from an intersection of Columbus Avenue and Highway 36-190 to extend west to the Auction Barn Road; thence down Auction Barn Road to the intersection of Farm to Market Road (Old Temple Highway) and ending at corner of West Battle Street and Columbus Avenue."

"An area beginning at intersection of West 22nd Street and Fannin Street, thence north along Silver City Road to a point at Northeast boundary of City Airport property west across Highway 77-190 to the western limits of Southern Pacific Railroad property; thence south to the Door Factory Road; thence west to a point which would intersect City of Cameron western limits; thence south to present city limit bound-

JURY 'HANGS' DAMAGE SUIT; RETRIAL DUE

A Milam District petit jury was dismissed Saturday after being unable to agree on a verdict in a \$157,000 damage suit filed against Santa Fe Railroad by an employee.

Judge W. C. Wallace presided over the case heard by a 12-member jury which announced itself "hung" about 5 p.m. Saturday. Case had gone to the jury the previous Friday evening.

Jury deliberation started at 9 a.m. and lasted all day Saturday.

Attorneys for the plaintiff, William Barney Ham, 66, of Temple, said the case would be tried again. Plaintiff attorneys are Robert Ellett, of Cameron, and Shirley Heim, of Houston.

John B. Henderson Jr., is the Cameron attorney for Santa Fe and represented the railroad with attorney Chilton O'Brien, of Beaumont.

Ham was seeking recovery for injuries alleged to be the negligence of Santa Fe Railroad during an August, 1967, train-car collision in which three persons died.

A major law suit involving the family of Mrs. Clayton Baker, of Temple, Rebecca Lynn Baker, 5, her daughter, and Valerie Comer, her niece, all dead in the collision, has been filed in Milam District Court and transferred to Federal District Court of Waco on a change of venue.

According to The Herald of Aug. 17, 1967, "Hamm, brakeman on the 90-car Santa Fe freight, was treated in a Temple Hospital, later released. He had fallen from the cupola of the caboose to the floor, one official said."

At one point, the petit jury thought they had answered the first two charges from the Court, part of a long charge to a petit jury in a civil suit, so that an allowance of 35 percent of the \$157,000 sought in damages would be granted.

District Clerk Grady Allen late Saturday afternoon polled the jury and found one juror in disagreement with what apparently was a unanimous decision. Judge Wallace advised them to return for a decision all twelve could agree on. Jury was unable to return unanimous.

Judge Wallace then declared mistrial and dismissed the jury, thanking them for their services.

The case opened with selection of the jury Tuesday, December 10. A new jury will be empaneled to hear the case if and when it is retried.

Jurors were: Eugene Salach, foreman; Edward Demmerson, L. A. Sales, Mrs. Joe Moore, D. E. Wadlington, Clinton Grimm, Wayne Caffey, Nathan Smith, Fred Y. Lance, H. E. Simmons, Guy Title and H. H. Linke.

By F. M. L.

Sheriff Carl Black had just kicked in the front door of the little house at 807 West Eighth St. He had gone in, followed by a Cameron policeman and a Texas Ranger or two. It was about 11:30 a.m. Tuesday.

The Sheriff had pumped two rounds in the house roof of Jourdan Bell Sr., about 56, before entering. He found the Negro man sprawled backward across a bed, a 12 gauge emptied into the heart-left shoulder area. His wife, about the same age, lay dead in the gravel street in front.

Officers carried four grandchildren, ranging from five to infant age, to their mother, Mrs. Jourdan Bell Jr., while the children's father comforted her as best he could.

Police officers from Bell County, Rosebud, Calvert and finally Capt. Clint Peeples, of Waco, were there.

Four or five men turned around briefly in the dead man's room, embarrassed, but relieved that an exchange of fire had been avoided by Jourdan Bell Sr.'s decision to end his own life.

Sheriff Black stood in the room, disheveled by that decision and looked over at me: "Hello, Frank."

It was not unlike a night in Buckholts five years prior when he said the same thing just before riding into scrub oak country to hunt four men wanted for murder. —109— Page Five

Seven Indicted By Grand Jury

Milam County Grand Jury considered ten cases Friday and returned seven indictments after hearing twelve witnesses.

Larry Joe Mitchell of Fort Worth was indicted on a murder without malice charge. Mitchell, 27, was the lone survivor of a 2-car accident September 29 on US 77 south of Cameron.

Seven were killed in the 4 a.m. crash, two were passengers in the car driven by Mitchell and five were traveling in a 1967 Volkswagen.

Also indicted Friday were: Fain Davenport, 19, of Port Neches on an October 25 charge of felony theft.

Charles Clinard, about 18, and Millard Mowdy, Jr., 18, both of Cameron, charged with theft of a tape recorder on November 13, indicted for felony theft.

Joe Glenn Kirk, 18, of Cameron, was indicted on charge of receiving and concealing stolen property.

HERALD CHRISTMAS EDITION

Readers and advertisers are reminded about next week's early Cameron Herald Christmas edition. Please get your news and ads in early. The Herald will go to press Monday afternoon, Dec. 23.

Yes, Canines, There Is A City Leash Law

Cameron does have a leash law. An ordinance passed by the City Council June 3, 1958 makes dogs running around loose in the city subject to impoundment and destruction.

The Herald was in error last week when a story about dog packs stated that the city had no such law.

The ordinance says, in part: "An ordinance...prohibiting dogs from running at large within the corporate limits of said city..." The term "at large" is defined as "off the premises of the owner and not under the control of the owner or a member of his immediate family either by leash, cord, chain or otherwise."

St. Ed Fund Get \$21,496 Boost

Contributions to the St. Edward Hospital building fund gained \$21,496 in less than a month, as the total rose to \$152,950, Robert Ellett, drive chairman told The Herald Wednesday.

A November 21 report showed \$131,454 had been contributed or pledged to the fund for the proposed new hospital.

The Mexican Patriotic Society will sponsor a benefit dance Saturday night at Cameron KC Hall. Proceeds from the dance will go to the hospital fund, Ellett said.

Drive headquarters have been moved from the Holder Building to St. Edward Hospital, Ellett said, due to the regular tenant's need for the building.

Challenge Old, Challenge New...

Cameron is preoccupied with its direction and the leadership that points the way. The secret, if any, to Cameron's leadership is it also is preoccupied with planning. It is deeply involved in "idea sessions", challenges of old ways, challenges of new proposals, testing, testing, testing until a synthesis of new

direction or, once in a while, a unique approach reveals itself. Leadership is a dimension of courage, insight, planning and commitment. It requires someone to say "follow me", but the modern leader seldom trusts to some kind of dumb luck before he says it. He takes an idea and unifies people around it. Perhaps he is never credited for it. That perhaps is least important.

Fewer Stammers And Stutters...

We concur with most of the recommendations to Governor Connally on Texas Constitution revision.

And we understand timing of a commission rather than a constitutional convention to redraft the present conglomerate.

If times were more serene and if Delaware, for example, had not rejected a new Constitution proposal, we would say this was not enough.

But there is time ahead. Meanwhile, the Commission proposes to reduce by half the Texas Constitution, verbose as it is in its 150 some amendments.

It strengthens the governor's office, which now has little time to implement a program in two-year terms, by recommending four years each. The recommendation extends to secretary of state, comptroller, treasurer, land commissioner and attorney general.

Under this proposal, the governor also would be empowered to remove appointive officers of the executive branch.

The proposal to appoint appellate judges by commission of laymen-lawyers sounds a bit like the Missouri Plan for judicial election and appointment, and has considerable merit.

And the proposal, among others, to empower the Legislature under voter approval to allow options in county and city home rule is more than sound. It is sensible in a time of burgeoning

suburbs, collapsing smaller, rural communities and shifting emphasis to county metro government which develops where city and suburb superimpose.

Perhaps a continuing study panel, somewhat along the lines of interim agriculture and education committees, should be named to keep the recommendations coming.

Perhaps the proliferation of amendments is avoidable if Texas government anticipates change, rather than relying on the palsied amendment procedure. It takes every hospital district before the Texas-wide electorate, for example, before one can be created. Is such the business of El Paso when the district is in Texarkana?

Acceptance by Governor-elect Preston Smith was positive. He is quoted as seeing more "good than there is bad" in the proposals. He is said to favor a section-by-section study of Constitution revision. Governor Connally, according to one wire report, left the session with his arm around Smith's shoulders.

It is Governor Connally who appointed the study commission and it is he who said he wished "temper of the times was such that you (the commission) could have gone further."

It is a good start on an instrument of government which stammers and stutters in an era when computers can store 900 characters a second.

OLD PHILOSOPHER

Dear editor:
When an original idea comes along it makes a man sit up and take notice, and that's what I did --well I didn't actually sit up, I mostly changed positions in my easy chair to get more comfortable -- when I read this article in a newspaper telling how some officials figured out how to solve the problem of speeding on a highway coming through their town.

When they found out that 80 per cent of the cars traveling that stretch of highway were breaking the speed limit, they decided something ought to be done about it.

CO-OP BUSINESS UP

Dollar business volume of farmer cooperatives, for the July 1, 1966 to June 30, 1967 year, exceeded \$16.5 billion, reports the USDA's Farmer Cooperative Service. This is an increase of 6 percent over the previous year and 59 percent over the volume of 10 years ago.

What they did was simple. They raised the speed limit. That took care of that.
This opens up vast opportunities in other fields. It'll work in either direction. For example, if schools notice a drop in the number of honor students, bring the educational attainment level back up by lowering failure to 40 and let 70 put you on the honor roll.

When some branch of government sees it's going to exceed its budget before the year is half over, head off a financial crisis by doubling the budget right then.

Is the crime rate increasing? Want to hold it at a constant level? Figure out the percentage of increase, then throw out the same percentage of laws.

Are you over-weight? This one's easy. No diets needed. Make the doctors decide 150 pounds for a woman is skinny and 200 is normal.

Did the joke you told fall flat? You don't need better jokes, just people with a lower sense of humor.

CAN HE KEEP HIS COOL?

Dateline Austin...

Austin's Zilker Park Decked By Largest Tree

By Vern Sanford

AUSTIN
This doesn't come under State Capital News, but nevertheless it's a capital idea.

We refer to the world's largest Christmas tree. It is erected in Zilker Park on the south bank of Town Lake in your Capital City.

This tremendous, Texas-size spirit of Christmas is 165 feet tall. It's not of fir, or spruce, or pine. It is composed largely of metal. You've heard of the fabulous Moonlight Towers of Austin. Well, this is an expansion of that idea--magnified a thousand times over--with not a few lights but thousands of them.

Long, sturdy cables, wrapped with electric wires bearing 3,500 colorful red, green, blue, yellow and white light bulbs, fan out conically from the tip of the tower...spreading a glow of 32,500 watts of candlepower. Their coverage, teepee style, over such an expansive area, is so great that motorists drive their cars under the gigantic "tree."

It's truly a sight to behold...an attraction that can be seen for miles and miles...and draws thousands of motorists, day and night, to witness its magnificent splendor.

AIDES ANNOUNCED

Gov.-elect Preston Smith is moving smoothly through organizational preliminaries in preparation for taking over the chief executive's office on January 21.

His staff already is virtually complete.

To the appointments he announced earlier, Smith added these:

—Vernon A. McGee of Austin,

head of the Legislative Budget Board for 16 years before he lost his job two years ago, will be the governor's major assistant for program development.

—Austin attorney Robert D. (Bob) Bullock, former state representative from Hillsboro and one of Smith's key campaign workers as appointments assistant, legal and travel aides.

—Larry Teaver Jr., a longtime

friend, as an administrative assistant and general office manager.

Indications are Smith wants former State Sen. Martin Dies Jr. as his first secretary of state. The popular Dies told newsmen last week he had not at that time been approached by either the governor-elect or his principal aides. He added he would "seriously consider" taking the "cabinet" post -- highest appointive plum the governor can bestow -- if it is offered, however.

Rounding out Smith's first team are Harold K. Dudley, executive assistant; Jerry Hall, press secretary; and James P. Oliver, budget director.

PRISON IMPROVEMENT

Governor-elect Smith has proposed the state's prisons as natural places to "concentrate some of our first action grants" under the new federal anti-crime program.

Smith told a meeting of probation and parole officers in Lubbock that "taking an offender out of society and placing him in prison often merely compounds the problems of helping him work into society as a law-abiding citizen who can support himself proudly and honestly."

"Our job in the coming months and years will be to find out what can be effective," Smith said. "Chances are, we will find that an extensive job -- training and education program will be a big part of the answer."

APPOINTMENTS

It's raining appointments from the Governor's office these days.

Gov. John Connally got far behind with filling vacancies to state agencies. His office once estimated he had nearly 200 to catch up on. At least one major post -- chairmanship of the Texas Employment Commission -- is four years overdue. It's traditional that governors fill vacancies occurring during their administrations, though appointees actually serve through terms of the present governor's successor.

Such was the case when Connally re-appointed Joe D. Carter to the key post of Texas Water Rights Commission Chairman. Price Daniel originally named Carter in 1961, and he served throughout Connally's administration. Carter's initial term actually expired in August, 1967, but Connally delayed re-appointment until last week. New term extends to February 1, 1973.

A different kind of appointment was Connally's choice of Amarillo contractor Leon P. Gilvin to succeed Will Odum of Austin as chairman of the Parks and Wildlife Commission. Odum resigned

unexpectedly. Gilvin will serve until February 1, 1971, when Odum's term expires.

Connally re-appointed Heino Staffel Jr. of Austin, Grady C. Clark Jr. of Corpus Christi and Garwood Gerdes of Giddings to the State Seed and Plant Board to serve until October 6, 1970.

Re-appointed to the Sabine River Authority are J. L. Payne of Hemphill, E. A. Meek of Newton, D. N. Beasley of San Augustine and Gus Morris of Greenville. Dudley Davis of Center and O. N. Pederson of Kilgore are new appointees to SRA.

City Secretary Virgil Gray of Brownwood will succeed Jimmie L. Mormon of Mesquite, who resigned, on the board of trustees of Texas Municipal Retirement System. Unexpired term runs until December 31, 1970.

Dr. James E. Peavy was named to the State Board of Health to a new term as Texas Health Commissioner. He has held this position since 1959.

ATTORNEY GENERAL RULES

Texas Highway Department can contract with Arkansas (subject to governor's approval) to participate in the cost of a joint road construction project, Atty. Gen. Crawford C. Martin has held.

In other recent opinions, Martin concluded that Harlingen Housing Authority property is not taxable even though part is let to concessionaires to serve residents; and that the Land Commissioner cannot alone reinstate a forfeited land purchase contract on settlement of delinquent account, though State Land Board can reinstate at any time up to resale bid acceptance.

COURT SPEAKS

State Supreme Court found no reversible error in Court of Civil Appeals decision upholding a proposed City of Houston annexation of 220 acres, owned by Houston Endowment, Inc.

Federal Court heard legal clash of financial titans, Gulf and Western Industries, Inc. and Sinclair Oil Corporation, over G. W.'s move to get all Sinclair stock.

Federal Court also will hear the case in which Kentucky guardsmen contest the right of the U. S. to activate state militia for overseas combat duty in "peacetime."

Supreme Court reversed and sent back for new trial a Colorado River Municipal Water District suit involving \$545,580 condemnation award for 4,014 acres of Wilcoxon Ranch in Coke County condemned in acquiring of dam and reservoir site.

Norman Haisler, speedy Junior tailback who led the Luchos Badgers in scoring and rushing, was named to the 10B All-District Team this season both on offense and defense.

Haisler, a steady performer at running back, led the team with 137 points on 21 touchdowns and 11 PATs, and was a rugged performer at linebacker and defensive safety.

The Badgers, who finished with an 8-2-0 record, also drew three Honorable Mentions. Gordon Haisler, Badger wingback and defensive end, and Mike Jones were named on the defensive unit, with quarterback Alan Barkemeyer on offense.

Oglesby, who rolled up an 11-0 record and a 77-44 Regional victory over the Aquilla Cougars, placed four players on the squad. Joe Pitts and Johnny Pitts bolstered the defensive six, while Willie Leos and Billy Pitts were named to the offense.

The 9-1-0 Jonesboro Eagles landed three players: Jim Ashby on defense, Randy Roebuck on offense, and Mickey Perry on both offense and defense.

Jarrell's 1-3-0 Cougars placed Freddie Garcia on both squads, and Milano (4-5-0) landed Ethan Williams, Johnny Hurt, and Billy Lopez on the starting units.

der. They too decided the next day to avoid a fight. But they walked out alive.

Sheriff Black had shouted into a small house where those four fugitives had hidden the night away. Some warning rounds had been fired the night before they ran into the scrub country, circled south and west and were caught next day. Capt. Clint Peebles was there, as many remember.

Sheriff Black also shouted into the Bell house Tuesday, asking the man Black thought still alive to come out. Then the house was entered, by Black and aides in the front and by Chief John Shearin and others in the rear.

It was quiet inside, except for the kids. They were safe and childlike, which is right, unafraid. The little frame house was on the edge of an area cleared for a housing project to come. That house seemed particularly isolated Tuesday.

For that generation of a family, it is over.

SCS

Farmers and ranchers in Milam, Bexar and Williamson Counties are using soil surveys to their advantage, according to Soil and Water Conservation District reports.

A soil survey can give prior warning to such problems as over-flow areas, underground faults, sewage drainage, and suitability of the soil for underground utilities.

Conservation staffs, with the aid of soil surveys, can recommend cropping systems and management practices to reduce the risk of costly land erosion. The productive capacity of the land can also be determined.

Locations for pond sites, waterways, and terraces can be determined from the survey. This will prevent costly failure of these structures.

The local SCS representative can supply more information on soil surveys and their use on your land.

BRUSH CONTROL

Use individual plant treatment methods of 2, 4, 5 - T mixed in diesel oil after frost. Use mechanical control methods when soil moisture is adequate for this treatment.

Farmer's Tax Guide Available

By J. D. Moore

The 1969 edition of the farmers income tax guides are available at the county agent's office in Cameron. Those unable to drop by and pick up a copy may request one by mail. There is no charge for the guides.

The guide has been redesigned this year to make it easier to use and more helpful to you in preparing and filing your 1968 Federal income tax return. Provi-

sions of the tax law that apply to farmers are explained in everyday language, and examples throughout the booklet show how these rules are applied to actual farming situations.

BEEF CATTLE RATIONS

Winter months usually require some supplemental feed for range beef cattle. With a good crop of dry grass available, consideration should be given to the protein requirement of cattle.

Generally speaking, where sufficient roughage is available in the form of hay or dry pasture grass, it will take approximately two pounds of 41 percent cottonseed cake protein supplement according to Tommy Thompson, Extension animal husbandman, for grown cattle.

If the hay being fed is 10 percent crude protein or more and if as much as 12 pounds of such is being fed, it is questionable if additional protein is advisable.

A 10 percent crude protein hay is about 50 percent digestible protein. Therefore, 16 pounds of such hay would supply .8 of a pound of digestible protein which meets the pregnant cow's requirement. Cow performance would depend upon the energy value of the hay. Although the protein requirement may be met, a cow would still get thinner when fed a low energy hay. Grass hays are generally low in energy whereas the sweet sorghum hays are higher in energy.

Cottonseed meal and salt mixtures have been fed for many years. The more common mix is 67 percent cottonseed meal and 33 percent salt. Such a mixture limits adult cattle to about 2 pounds of cottonseed meal daily per head. This mixture may be altered to get the desired protein consumption.

SYRUP LICK TROUBLES?

Not enough information is available on this subject. A&M Experiment Station ran a test some 10 years ago. This test was run in one of our western counties where grass is always in short supply. We feel that improvements have been made in the quality present day syrup feeds particularly additives as well as feeding equipment. Then too, our grass supplies are better than average.

Briefly, with cottonseed cake at \$70 per ton and Urea - molasses supplement at \$60 per ton the cost of winter feeding was \$14.32 per head for the cows fed cake and \$13.95 for those fed the Urea - molasses supplement. The cows fed cake lost 92 pounds of weight while those fed Urea - molasses lost 129 pounds. Average gain for the calves from cows fed cake was 245 pounds while those from Urea - molasses fed cows

was 285 pounds. According to local veterinarians, low blood sugar is a problem. This condition is associated with cows "getting down" in the winter on dry, thin pastures. Good hay fed to cows is helping this situation. Molasses feeding definitely is a good energy source. Our main cattle problem is making money with those "critters". Stockmen will have to put their pencil on supplemental feeding.

TWIGS ON THE GROUND

The twig girdler is the insect responsible for girdling small twigs and branches on trees, causing them to break and fall to the ground. They work mostly in the fall when their eggs are laid on a branch. They move back and then girdle the branch and shortly thereafter it falls to the ground. If they aren't removed, these fallen twigs become the source of infection the following year. Therefore, it's a good practice to pick up and burn the girdled twigs.

GO SLOW

Turkey producers and processors, meeting recently in Washington with USDA officials, are calling for a hold-the-line on 1969 turkey production. The group said that an increase in next year's production would bring lower prices to producers and too many carried over in storage.

Smith Names Dudley Top Executive Aide

Lt. Gov. Preston Smith, laying the groundwork for his move to the governor's office in January, has picked Harold K. Dudley of Austin to be the top aide in his up-coming administration.

Dudley, 44, was appointed Governor-elect Smith's executive assistant.

He has served as Smith's campaign manager during the primaries and general election campaigns. Previously, Dudley assisted Smith in administrative matters during most of Smith's last four years as lieutenant governor. He also served as Smith's campaign manager in 1966.

Dudley will serve as the first assistant to the governor and coordinate the functions of the governor's entire staff.

A native of Wichita Falls, Dudley was a former Chamber of Commerce manager there before joining Smith in Austin in 1965.

Dudley was graduated from Midwestern University with a degree in business administration in 1948, and received his masters in business administration from The University of Texas at Austin in 1967. He has now been admitted to the University's doctoral program in business.

You Don't Say

CONTINUAL
if you mean: without ceasing!
CONTINUOUS is correctly defined thus: complete absence of interruption; without ceasing.

CONTINUAL means a frequent interruption of events marked by frequent interruptions and recurrences!

An excellent example: The CONTINUAL dripping of a faucet; the CONTINUOUS flow of water!

Make Your Home Safe From Fire

COLLEGE STATION
Few things are more costly and in many instances, more tragic than fire, says an Extension agricultural engineer at Texas A&M University.

Resolve to make your home a fire safe home, suggests W. S. Allen. A home safe from fire, he says, depends on two important factors: good family habits about fire and its hazards, and good construction.

Good family habits include such things as care with matches and smoking, good housekeeping to get rid of rubbish, proper use of electrical fuses, appliances, and extension cords, and a constant general awareness of the ways fires start and how to avoid them.

Good construction for a fire safe home, according to the engineer, includes built-in fire stops. These are barriers of wood or masonry between studs, joists, rafter or tringers that serve to prevent the spread of smoke and fire. Good escape routes are a must. Best exits lead directly outside, not through other rooms. Windows should be large enough and low enough to climb through, and operate easily for the youngest member of the family.

Interior finish of materials with low flame-spread characteristics is suggested. Wallboards made of gypsum, cement, asbestos and similar materials are noncombustible and resist flame spread.

Fire-resistant roofing material, such as asphalt shingles, slate, asbestos or metal is preferred.

Proper wiring is most important. Qualified electricians follow the provisions of the National Electrical Code when installing wiring, a major factor in a fire safe installation.

A good heating plant properly installed and located, regularly inspected and cleaned insures its safe operation, he says. A furnace should never be located under stairs or near an entrance where fire originating in the heater might block escape.
